

IOTA REVERSE

Machine for endpapers and gauze

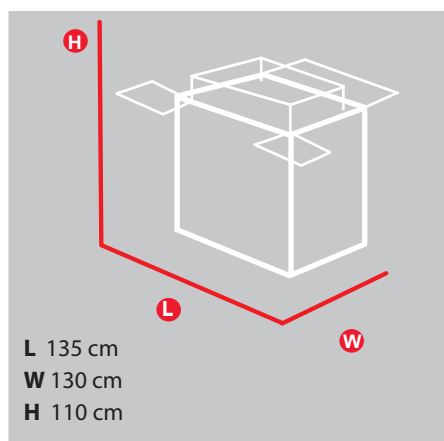

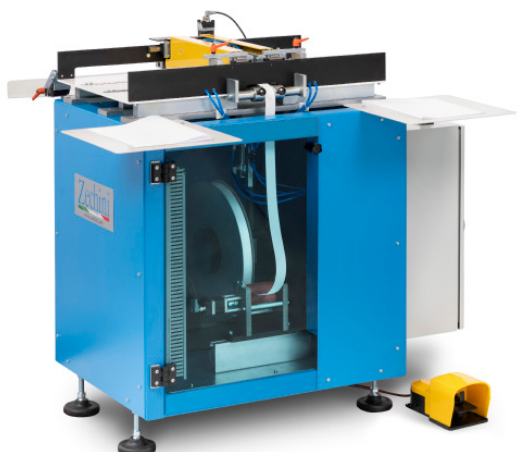

Macchina per risguardi e garza

Max size 320 x 320 mm

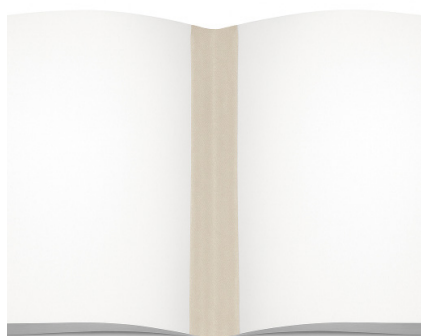

Mechanical speed 300 pcs/h

Iota Reverse is a compact machine that attaches the front and rear endpapers onto the book block lining band. An operator places end papers in the gluing station and two heated plates to melt the glue present on the band so that the endpapers stick to it.

Iota Reverse è una macchina compatta che attacca i risguardi anteriori e posteriori alla garza. Un operatore colloca i risguardi nella stazione di incollaggio e due piastre riscaldate sciolgono la colla presente sul nastro in modo che i risguardi vi aderiscano.
